An introduction

The Geneva School of Diplomacy & International Relations (GSD) is located in the Domaine de Penthes at Pregny-Geneva, a very beautiful campus in the heart of the most diplomatic neighborhood on the planet. That neighborhood is home to more than 190 international organizations – governmental and non-governmental. GSD students are regular visitors to one or another of these organizations. And every GSD student carries a card and pass to one of the great libraries of the world in the field of international relations and international law – the United Nations Library.

The mission and commitment of GSD is that its graduates and alumni contribute to improving the state of world society – while building careers for themselves of high value. To this end, the faculty of GSD is second to none: lecturers are either renowned academics or are themselves serving diplomats. A number of ambassadors serving their countries in Geneva are regularly teaching at GSD.

The GSD prepares future world leaders for their roles on the world stage to advance peace and human rights. Based on its core values of Academic & Vocational Excellence, Integrity and Professionalism, GSD provides high quality and praxis-orientated education combined with an commitment to student support and promotes a philosophy rooted in the School's motto 'serviendo governo' – that to govern is to serve.

The Executive Master of International Relations (EMIR) programme is flexible and challenging and aimed at enriching the skills of professionals through a diverse modular curriculum, tailored teaching methods, and an interactive learning environment.

The Executive Master Degree programme is designed for busy professionals from both the public and the private sector who seek to earn a graduate degree in International Relations by developing their practical skills and deepen their knowledge of international politics and diplomatic issues, while working full time. An important part of our EMIR programme is the development and improvement of your diplomatic skills, to improve your professional performance and career path.

Essay-writing Instructions: choosing a topic, a teacher, and submission

All academic papers/essays performed at GSD shall meet the requirements described in the GSD Student Handbook available on the [Intranet page](#)

Students must write their essays on one of the topics discussed in class and are requested, well in advance, to ask for instructions and coordinate the writing process with the faculty member teaching that module. The finalized work needs to be submitted via-email to the teacher – the main grader – and the Academic Office. **Crucial to mention, all final drafts must be submitted to the Turnitin and a similarity percentage copy must be submitted/sent altogether with papers/essays, as well.** Teachers will have one month to check, grade, and give **feedback** on the paper via [EMIR Term Paper Evaluation](#).

Preparation of the home assignments and readings

Timely preparation of the home assignments and readings is essential part of the Programme workload and has to be done on the regular basis following the lecturer's instructions.

Dissertation

Each EMIR Student will be assigned to the Dissertation Adviser upon submission to the Academic Office a duly filled out [Dissertation Research Proposal](#).

The deadline for submission of the Research Proposal is:

- **First Monday after the sixth Module.**

Assessment

1. The students are given either Pass or Fail for their classes based on the feedback from their lecturers. Feedback from the lecturers shall take into consideration:
 - Regular attendance
 - Active informed participation in class activities
 - Preparation of home assignments and readings
 - Other relevant criteria

Class attendance is mandatory and gives 30% of the final grade for the Term Essay, which will be reduced in case of unexcused absence(s). **The Students must attend a minimum of 80% of the sessions.**

2. Final assessment of the Term Essay and Thesis is based on the GSD Marking Scheme & Guidance.
In case of "Fail" students are given one month to improve their Term Essay/Thesis, and the maximum grade will be "Pass" = "E" 50%.

*If the work received an "F" on the second attempt, the school will decide whether an additional final attempt will be considered; the financial penalty will be applied, as well.

Late submission of the Term Essay/Thesis

Late submission of the Term Essay will lead to the following possibilities:

- Late submission within one week after the deadline - the maximum grade will be "Pass" = 50%
- Late submission one week after the deadline - the student gets "Fail" for the Term Essay/Thesis
 - If the work is submitted after this deadline (but within 2 months) a financial penalty of 500CHF will be applied and the grade of the work (if equivalent to 'E') will be officialized at the end of the following semester, only. In cases of delays of more than 2 months (but within 5 months), the financial penalty increases to 1000CHF and the communication and officialization of the grade (if equivalent to 'E') will be postponed for another semester. Submission done beyond these delays will be discussed and decided by the GSD Academic Panel. In all these cases, the (re)submitted works will receive a maximum grade of 'E'.

In case the student has valid excuse for non-submission of his/her Thesis, the Extension Request Form has to be duly filled out and submitted to the Academic office at least 1 month before the deadline.

Late submission of the Research Proposal

- In case of late submission of a Research Proposal within one week after the deadline, 10% of the final grade for the thesis will be deducted
 - Should a student submit his/her Research Proposal two weeks after the submission deadline, 20% of the final grade for the thesis will be deducted
 - No Research Proposal will be accepted after the two week allowance, and the student's deadline for dissertation submission will be reported to the next semester.
